tool cart

**VARIOCART**

# VARIOCART

The VARIOCART has a standardized frame with slots for shelves, drawers, retainers and holders on the backside for package support rails. All of the tool cart equipment can be configured according to the customers needs. The retainers can be supplied in a short and long version. Euro boxes will be delivered by VARIOVAC as well. They come with an open bottom and sides and can be supplied in a high and a flat version. Thanks to the simple design and user-friendly assembly, it is possible to deliver the VARIOCART in a dismantled state to the customer.

## TECHNICAL DATA

Measures (LxWxH): 1510 mm x 875 mm x 1450 mm

Weight: appr. 77 kg

Max. total load capacity: 550 kg

Temperature resistance: -20° to + 35 °C

## DESIGN

- Industry standard for the food sector
- Supplied in stainless steel (section pattern)
- Industrial rollers with high resistance
- Maximum of 5 slots for shelves and drawers
- Incl. 3 Support Rail Holders
- Incl. 3 Euro boxes (high version)

Intelligently engineered  
with high capacity and  
a space-saving design!

## SHELFES

Weight: 27 kg

Load capacity: 90 kg

Storage surface: 1330 mm x 780 mm

incl.: 4 retainers (long), brackets,  
stiffening struts, stoppers (2° gradient),  
1 Euro box (flat version)

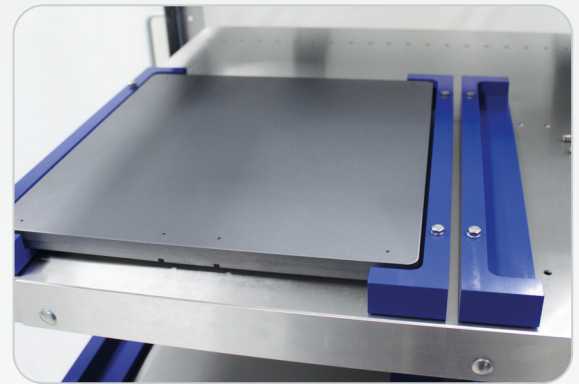

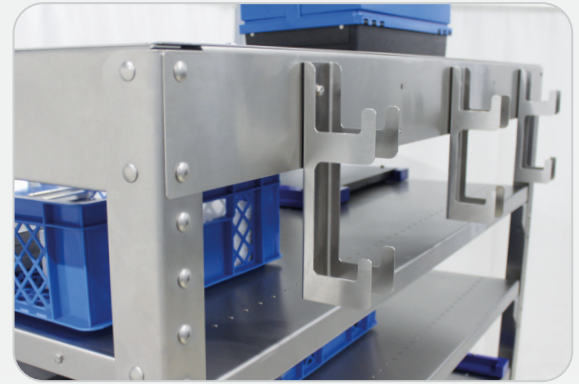

## DRAWERS

Weight: 20 kg

Load capacity: 50 kg

Storage surface: 1300 mm x 450 mm

incl.: 4 retainers (short), handle,  
rail and slide system, mounting rails,  
slide limiter and stopper  
(2° gradient), 1 Euro box  
(flat, short version)
